Recent CPP Stories

EPA moves to repeal Obama's Clean Power Plan coal regs. "EPA Administrator Scott Pruitt announced Monday that the Trump administration is moving to scrap the Clean Power Plan, the Obama administration's signature regulatory program to curb emissions from coal-fired power plants. Pruitt made the announcement at an event in Hazard, Ky., casting the previous policy as unfair. "That rule really was about picking winners and losers," Pruitt said. "The past administration was unapologetic, they were using every bit of power, authority to use the EPA to pick winners and losers on how we pick electricity in this country. That is wrong." (Fox News, 10/09/17)

EPA's Pruitt moves to repeal Obama-era Clean Power Plan. "EPA Administrator Scott Pruitt on Tuesday formally proposed repealing the Obama administration's "Clean Power Plan," in a move to ease regulations on coal-fired power plants. The EPA said the move to repeal would facilitate new developments of U.S. energy resources and reduce unnecessary rules that have curbed their development. "The president made a promise to the American people that the EPA would not be an agency that picks winners and losers as we generate electricity in this country," Pruitt told Fox News' "Special Report with Bret Baier" Tuesday night. "The [Obama] administration made a commitment to declare a war on coal. And effective yesterday and today, that war is over." The EPA said in a statement that the agency wants to declare that the Clean Power Plan exceeded the government's authority." (Fox News, 10/10/17)

Pruitt's Clean Power Break. "The Trump Administration is giving the economy a boost with its deregulatory agenda, and the latest example comes Tuesday when Environmental Protection Agency chief Scott Pruitt will propose to repeal the Obama Administration's Clean Power Plan. Ending this power grab will uphold the letter of the law and restore cooperative federalism with the states." (The Wall Street Journal, 10/08/17)

WOTUS ...

EPA, U.S. Army Move to Rescind 2015 "Waters of the U.S." "The Environmental Protection Agency, Department of Army, and Army Corps of Engineers (the agencies) are proposing a rule

to rescind the Clean Water Rule and re-codify the regulatory text that existed prior to 2015 defining "waters of the United States" or WOTUS. This action would, when finalized, provide certainty in the interim, pending a second rulemaking in which the agencies will engage in a substantive re-evaluation of the definition of "waters of the United States." The proposed rule would be implemented in accordance with Supreme Court decisions, agency guidance, and longstanding practice. 'We are taking significant action to return power to the states and provide regulatory certainty to our nation's farmers and businesses,' said Administrator Scott Pruitt. 'This is the first step in the two-step process to redefine 'waters of the U.S.' and we are committed to moving through this re-evaluation to quickly provide regulatory certainty, in a way that is thoughtful, transparent and collaborative with other agencies and the public.'"
